

Signetdata.com: Using EBV Search

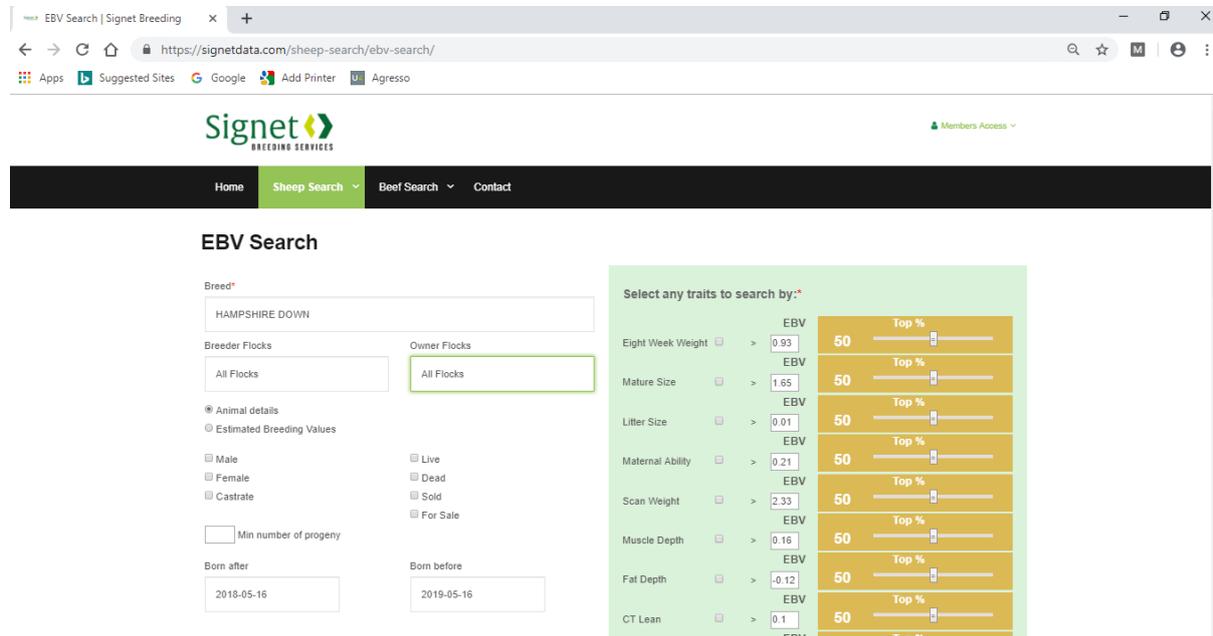

Go to www.signetdata.com

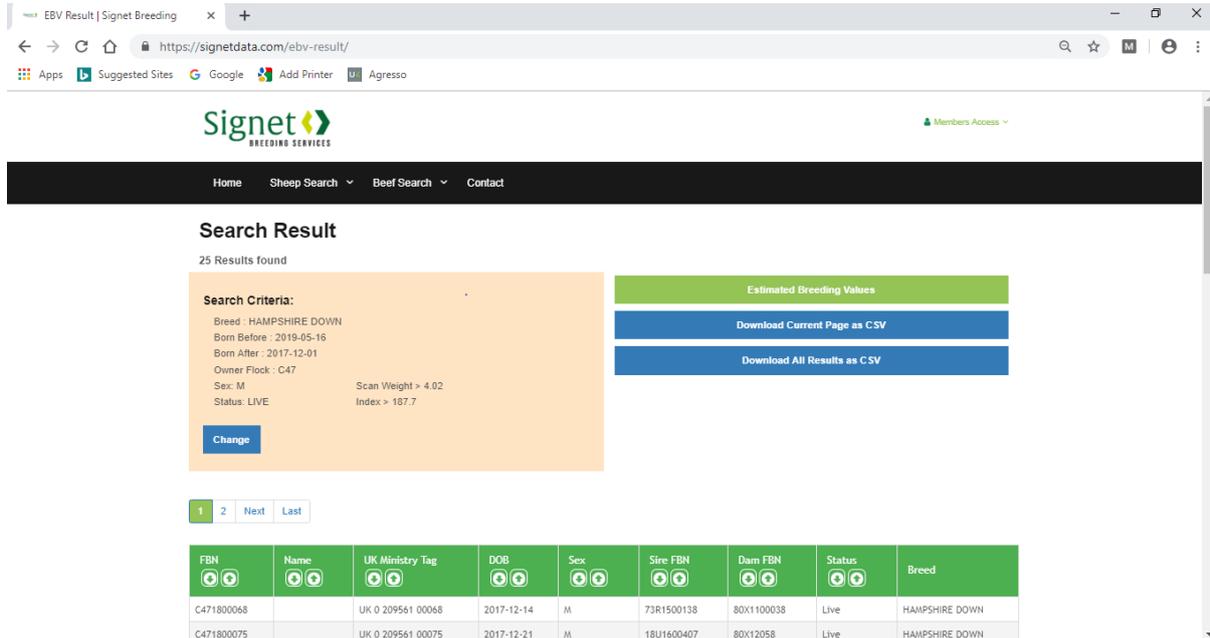

Use the 'Sheep Search' drop down menu and select 'EBV Search'

A series of selection criteria will appear, compulsory fields are marked with *:

1. Select 'breed' from the drop down menu*
2. To find animals bred by a certain breeder, use the 'breeder flocks' field and select from the menu
3. To find animals owned by a certain breeder, use the 'owner flocks' field and select from the menu
4. Select 'animal details' or 'estimated breeding values' to control how your results appear
5. Check multiple boxes to set search criteria. To search for live males for example, check 'male' and 'live'
6. Enter a minimum number of progeny if you are searching for animals with recorded progeny (at the time of writing this document, this field is still in development)
7. To search animals of a certain age, change your 'born after' and 'born before' window. Dates can either be selected from the pop up calendar, or typed in manually
8. Select EBVs you wish to search on*, check the box next to the trait(s) of interest, then use the sliding scales to select animals in a specified percentile. You can search on multiple EBVs/indexes at the same time. (at the time of writing this document, the maternal index search function is still in development)
9. Click 'submit' at the bottom of the page to initiate your search

The screenshot shows a web browser window with the URL <https://signetdata.com/ebv-result/>. The page title is "EBV Result | Signet Breeding". The website header includes the Signet Breeding Services logo and a "Members Access" link. The navigation menu has "Home", "Sheep Search", "Beef Search", and "Contact".

The main content area is titled "Search Result" and shows "25 Results found". On the left, there is a "Search Criteria" box with the following details:

- Breed: HAMPSHIRE DOWN
- Born Before: 2019-05-16
- Born After: 2017-12-01
- Owner Flock: C47
- Sex: M
- Status: LIVE
- Scan Weight > 4.02
- Index > 167.7

 A "Change" button is located below the criteria.

On the right side, there are three buttons:

- Estimated Breeding Values
- Download Current Page as CSV
- Download All Results as CSV

Below the criteria box, there are pagination controls: "1", "2", "Next", and "Last".

A table of search results is displayed with the following columns: FBN, Name, UK Ministry Tag, DOB, Sex, Sire FBN, Dam FBN, Status, and Breed. The table contains two rows of data:

FBN	Name	UK Ministry Tag	DOB	Sex	Sire FBN	Dam FBN	Status	Breed
C471800068		UK 0 209561 00068	2017-12-14	M	73R1500138	80X1100038	Live	HAMPSHIRE DOWN
C471800075		UK 0 209561 00075	2017-12-21	M	18U1600407	80X12058	Live	HAMPSHIRE DOWN

1. I have submitted a search to find live male Hampshire Downs owned by the C47 flock born in the last two seasons (shearling or younger) with terminal index and scan weight EBV in the top 25%. This has returned 25 animals that fit the criteria
2. As I selected 'animal details', my results have returned in that format
3. Using the arrows in the green header bar I can order results by whichever field I am most interested in
4. Selecting an individual will take you to its own animal page showing its EBVs and information
5. Clicking 'Download all results as CSV' will export all your search results, in this case 25 animals, in an easy to use Excel file for your further use
