

Signetdata.com: Submitting lambing records

The Signet database has moved to www.signetdata.com.

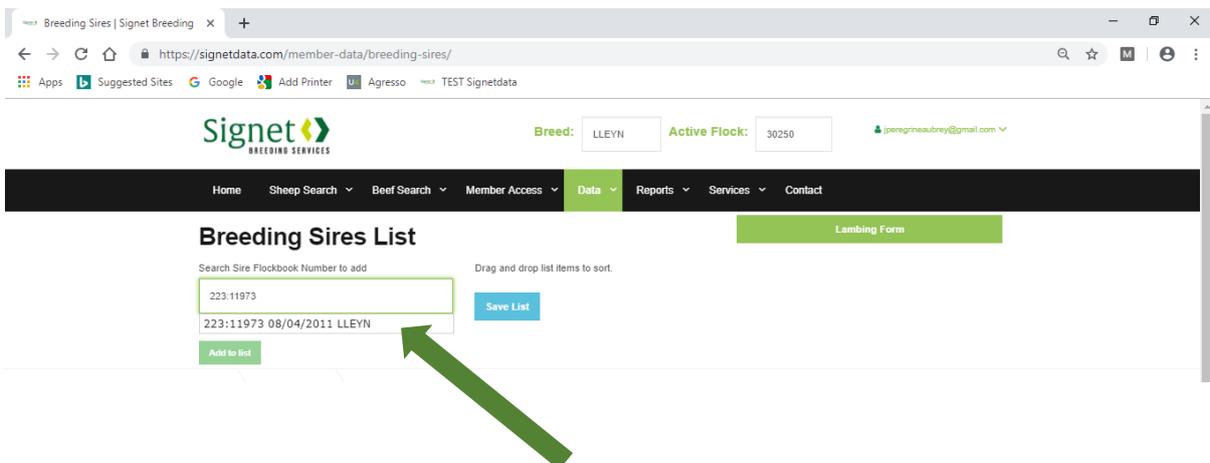

From the home page, clients can log into their account by heading to “Member Access”. On this page they will be asked to enter a password. When using the site for the first time, clients will need to press “forgotten password” to set up a new one.

Selecting Breeding Sires

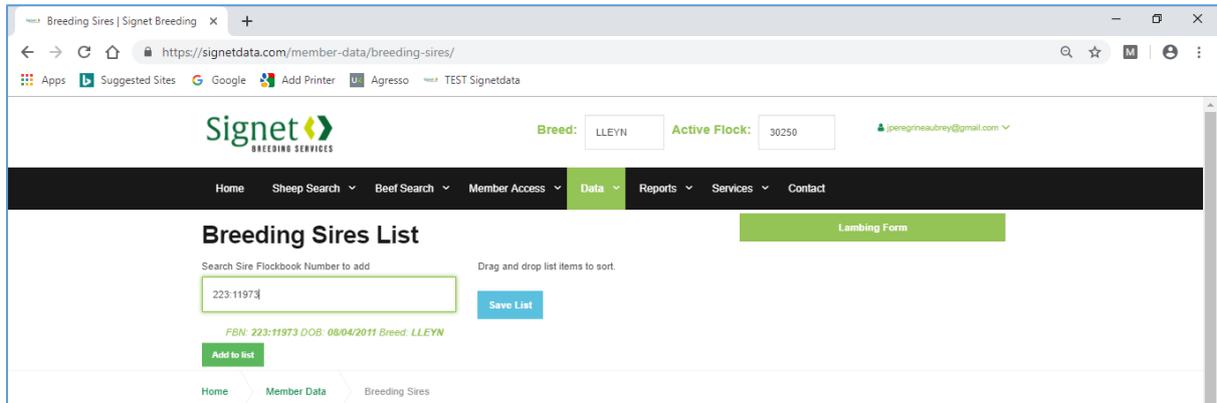

1). Go to the “Data” menu and select ‘Breeding Sires’

2). Type in the Flockbook number of the sire & it will appear in the drop down menu.

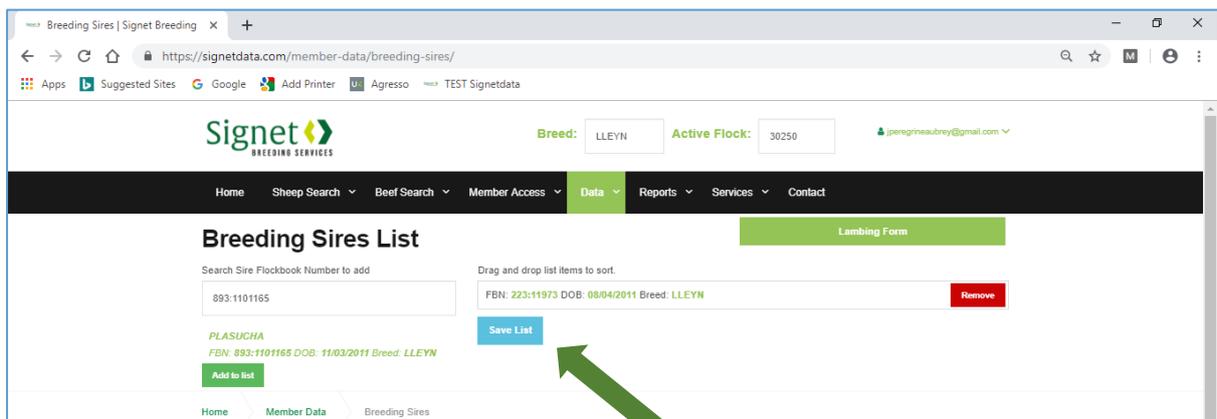

3). Select the sire of interest from the drop down menu & it will appear in green text.

4). If the details are correct, click 'Add to list' and the sire will appear at the right hand side of the screen.

If you wish to remove an animal click 'remove'.

Keep adding sires until they are all on the list, including AI and ET sires.

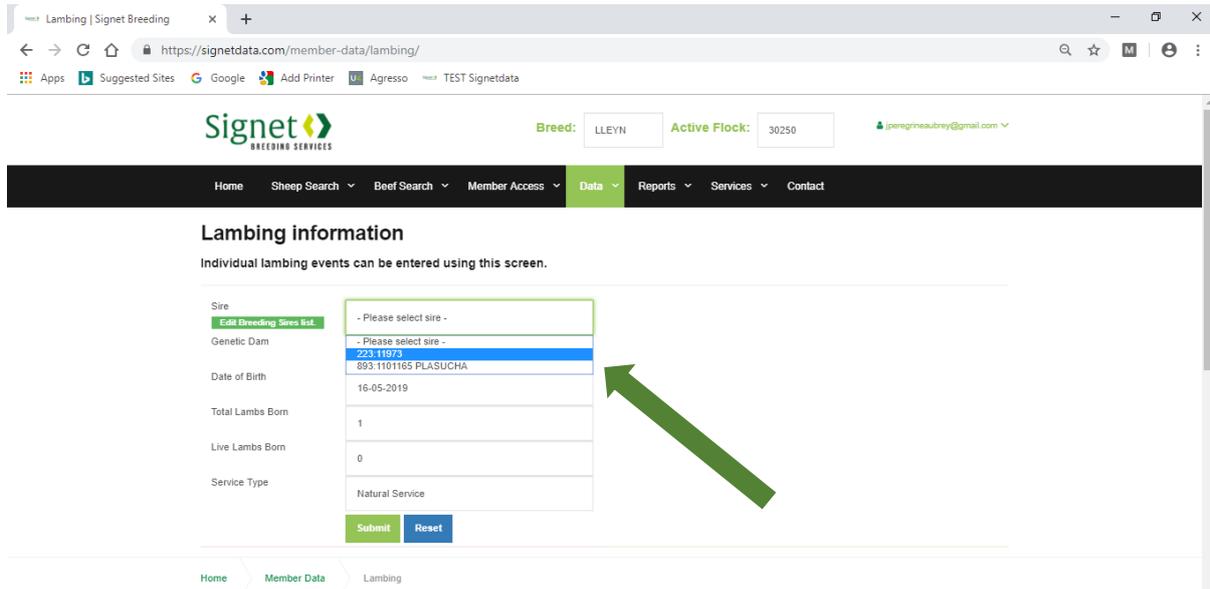

5). Important. Once your sire list is complete, click the blue button 'Save list'.

6). To submit lambing, either:

- Click the green button "Lambing Form"
- or select "Lambing" under the "Data" menu.

Entering Lambing Information

7). Use the drop down menu to select the sire of the lambs.

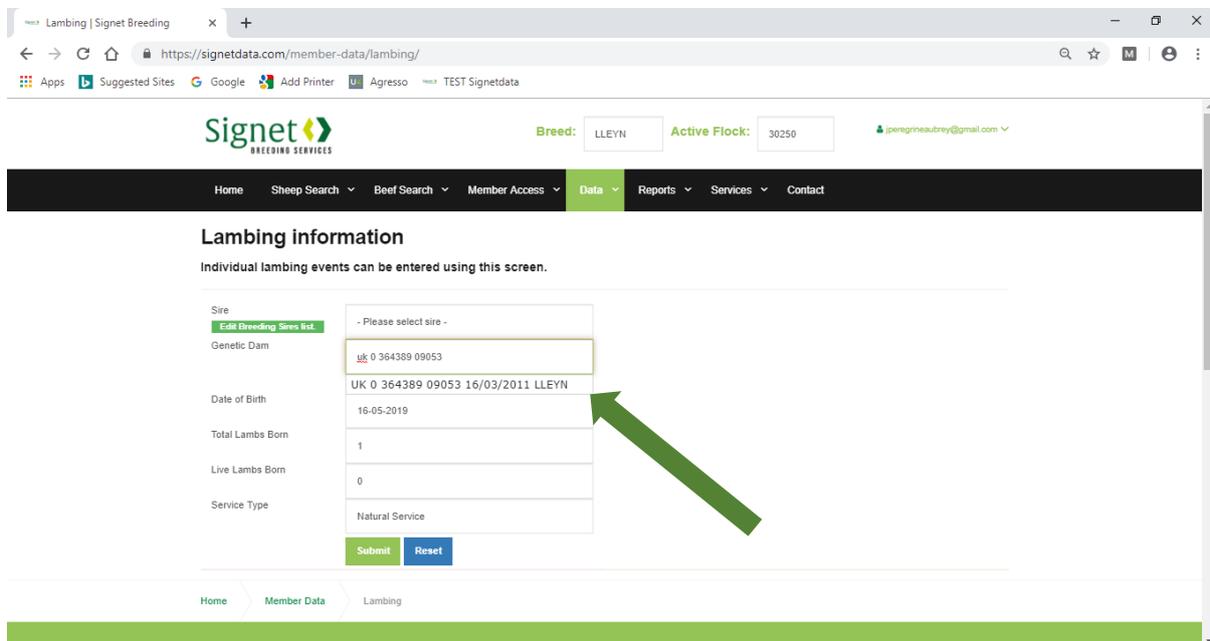

The screenshot shows the 'Lambing information' form in the Signet Breeding Services web application. The form is titled 'Lambing information' and includes a sub-header 'Individual lambing events can be entered using this screen.' The form fields are as follows:

- Sire:** A dropdown menu with the option '223 11973' selected. A green arrow points to this dropdown.
- Genetic Dam:** A dropdown menu with the option '893:1101165 PLASUCHA' selected.
- Date of Birth:** 16-05-2019
- Total Lambs Born:** 1
- Live Lambs Born:** 0
- Service Type:** Natural Service

At the bottom of the form are 'Submit' and 'Reset' buttons. The breadcrumb trail at the bottom of the page reads 'Home > Member Data > Lambing'.

8). Type in the details for the genetic dam and select the ewe of interest from the list in the drop down menu.

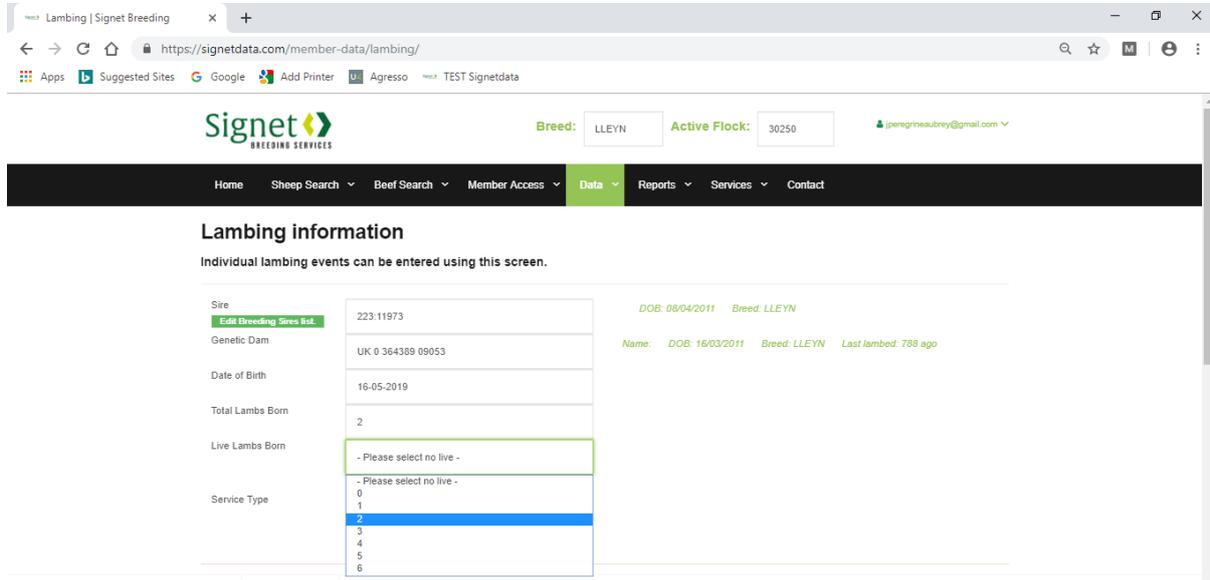

The screenshot shows the 'Lambing information' form in the Signet Breeding Services web application. The form is titled 'Lambing information' and includes a sub-header 'Individual lambing events can be entered using this screen.' The form fields are as follows:

- Sire:** A dropdown menu with the option 'UK 0 364389 09053 16/03/2011 LLEYN' selected. A green arrow points to this dropdown.
- Genetic Dam:** uk 0 364389 09053
- Date of Birth:** 16-05-2019
- Total Lambs Born:** 1
- Live Lambs Born:** 0
- Service Type:** Natural Service

At the bottom of the form are 'Submit' and 'Reset' buttons. The breadcrumb trail at the bottom of the page reads 'Home > Member Data > Lambing'.

9). Continue to populate the form, entering the

- Date of birth of the lambs
- Total lambs born (including dead lambs)
- Total live lambs born

Lambing information

Individual lambing events can be entered using this screen.

Sire	223-11973	DOB: 08/04/2011	Breed: LLEYN
Genetic Dam	UK 0 364389 09053	Name: DOB: 16/03/2011	Breed: LLEYN Last lambed: 788 ago
Date of Birth	16-05-2019		
Total Lambs Born	2		
Live Lambs Born	- Please select no live -		
Service Type	0 1 2 3 4 5 6		

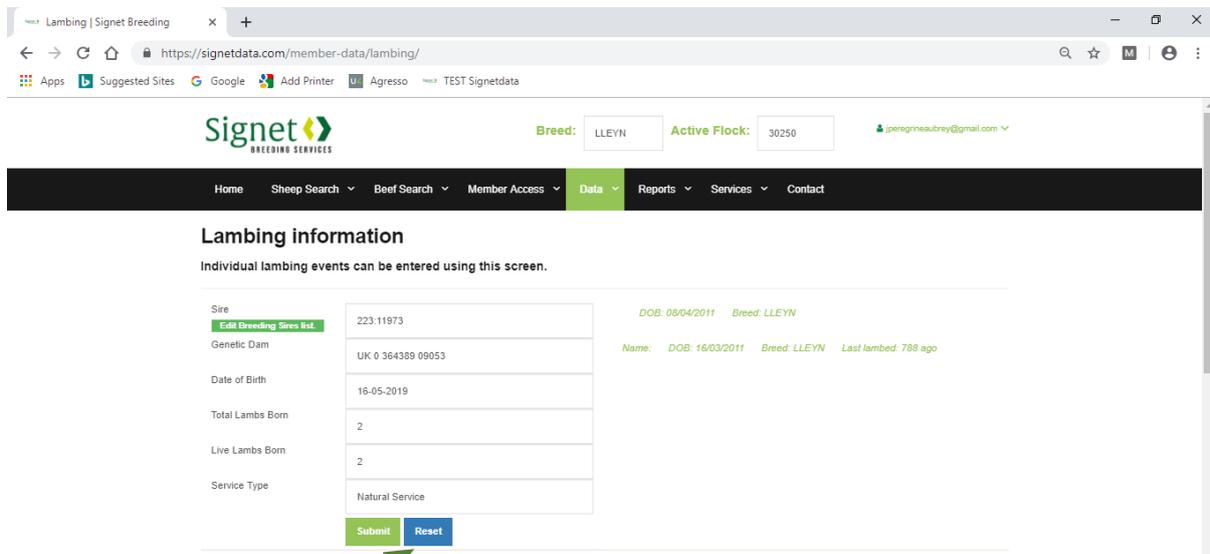

Submit **Reset**

10). Select service type from the list. We realise most will be natural service.

Please note:

- If you select “Artificial Insemination” you will be asked for a service date.
- If you have selected “Embryo Transfer” you will be asked to enter an ID for the embryo recipient. If the recipient ewe is not on the system, send a list through to Signet in advance and we can set them up for you.

When you have checked the details, click ‘submit’.

Lambing information

Individual lambing events can be entered using this screen.

Sire	223-11973	DOB: 08/04/2011	Breed: LLEYN
Genetic Dam	UK 0 364389 09053	Name: DOB: 16/03/2011	Breed: LLEYN Last lambed: 788 ago
Date of Birth	16-05-2019		
Total Lambs Born	2		
Live Lambs Born	2		
Service Type	Natural Service		

Submit **Reset**

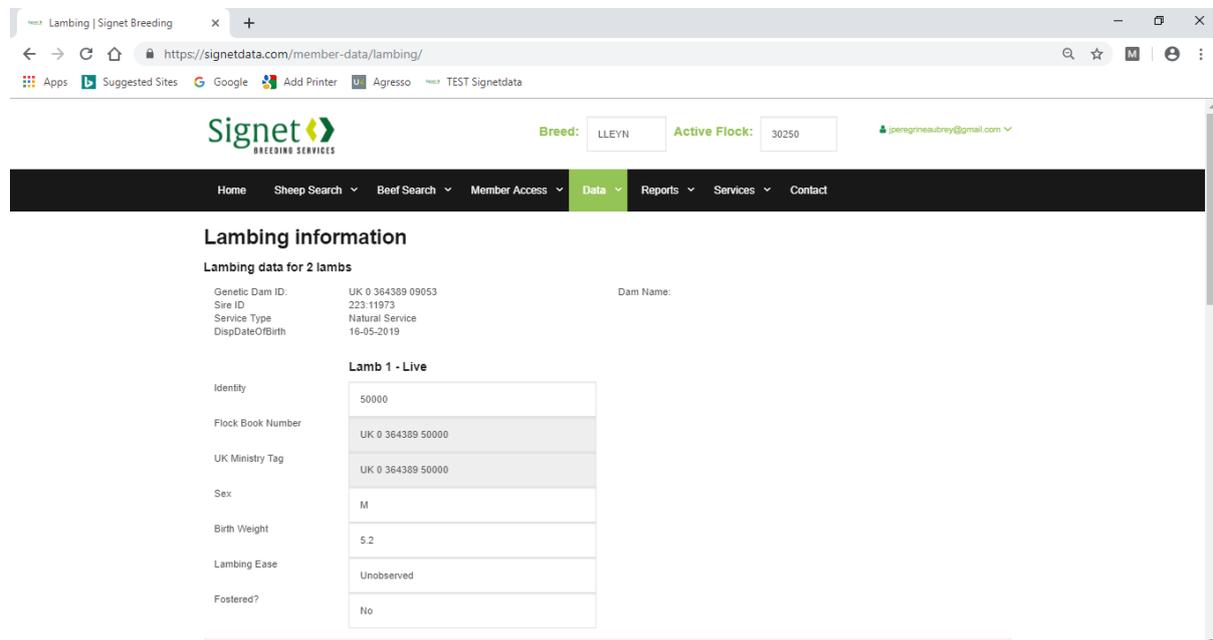

Information about individual lambs

11. The next screen enables the submission of information about individual lambs.

For “Identity” simply type the last 5 digits of the UK ministry tag & the database will populate the flockbook number, UK ministry number and EID.

For dead lambs a number should be used to enable the database to create a unique flockbook number for the dead lamb.

Clients should also then enter sex, birth weight (if known), lambing ease score (if known) and fostering information.

The screenshot shows a web browser window with the URL <https://signetdata.com/member-data/lambing/>. The page header includes the Signet logo, a navigation menu (Home, Sheep Search, Beef Search, Member Access, Data, Reports, Services, Contact), and user information (Breed: LLEYN, Active Flock: 30250, jpersgrineaubrey@gmail.com). The main content area is titled 'Lambing information' and 'Lambing data for 2 lambs'. It displays a table with the following data:

Genetic Dam ID:	UK 0 364389 09053	Dam Name:	
Sire ID:	223.11973		
Service Type:	Natural Service		
DispDateOfBirth:	16-05-2019		

Below this is a section for 'Lamb 1 - Live' with a table of input fields:

Identity	50000
Flock Book Number	UK 0 364389 50000
UK Ministry Tag	UK 0 364389 50000
Sex	M
Birth Weight	5.2
Lambing Ease	Unobserved
Fostered?	No

In the example below, the lamb has been fostered onto another ewe.

In this scenario, selecting ‘Yes’ from the ‘Fostered?’ drop down menu will initiate the appearance of more fields to type in the identity of the foster ewe (if known) and the date the lamb was fostered.

The screenshot shows a close-up of the 'Fostered?' section of the form. The 'Fostered?' dropdown menu is set to 'Yes'. Below it, the 'Foster Dam ID' field is populated with 'UK 0 364389 03170' and the 'Date Fostered' field is '16-05-2019'. A green arrow points to the 'Fostered?' field. At the bottom of the form, there are 'Create' and 'Cancel' buttons. The breadcrumb trail at the bottom of the page shows 'Home > Member Data > Lambing'.

Once information has been completed for each lamb in the litter, click ‘create’. Your lambing record has been successfully submitted onto the database.
